

V406

Paediatric fingertip pulse oximeter
Technology that doesn't miss a beat

The **DARAY** V406 fingertip pulse oximeter is used to measure oxygen saturation levels and pulse rate via the patient's finger. Designed specifically for paediatric use, the V406 is small, lightweight with an audible alarm for extra reassurance. The V406 is available in pink or blue and comes complete with lanyard to allow easy access when needed.
